YUGOSLAVIA STEPS UP EXPORT OF ANIMAL PRODUCTS. CHINA, WOOD PRODUCTS, STONE

MONTENEGRO EXPORTS NEW ITEMS -- Zagreb, Vjesnik, 18 May 51

With the export of livestock casings, wild animal pelts, and bluefish, Montenegro is satisfying its import needs in great part. The "Spoljopred" Republic Enterprise in Hercegnovi is trying to export other little-utilized items. They are preparing to export turtles and willow goods.

Montenegro exported 100,000 US dollars worth of livestock casings to Austria, Switzerland, West Germany, and France. These casings are 50 percent higher in price than casings made in other countries because they are processed by a different method. However, about 80,000 casings are wasted each year, an amount sufficient to purchase 150 tractors.

EXPORT CHINA FROM CELJE -- Zagreb, Vjesnik, 17 May 51

The new section of the enamelware factory in Celje, which was put in operation 1 May, has produced its first dishes for export. This section produces 200 kinds of dishes of excellent quality, which are in great demand by Egypt, Syria, Africa, Arabia, and India.

This section, which is devoted exclusively to producing dishes for export, has 27 rooms for decorating enamelware, and two modern electric kilns. The new section is the first step in the modernization of the entire factory which will be completed when the hydroelectric power plant system on the Drava River is completed.

EXPORT WOOD PRODUCTS -- Zagreb, Vjesnik, 27 May 51

In 1950, the "Florian Bobic" Wood Factory in Varazdin, well known for its chairs, round tables, and armchairs, exported 80,000 chairs.

The factory has now begun production on 200,000 chairs for new markets in North and South America, Egypt, Malta, Syria, and West Germany.

EXPORT QUALITY STONE -- Zagreb, Vjesnik, 22 May 51

Pula, 21 May -- Large quantities of first-class building stone are being exported to Vienna for the restoration of war-damaged buildings. The "Istarski Kamenolomi" (Istrian Quarries) Enterprise in Pula will export large quantities of high-grade stone from the Marcana quarries to Switzerland, Belgium, Italy, England, and Trieste.
